Experience

Frontend Developer Internship - Frontend Simplified

(Dec 2022 - Jan 2023)

- * Transformed a completely static HTML, CSS, Javascript and React single page application into an interactive user interface using animations, transitions and carousels.
 - * Processed API requests with Axios to dynamically represent data from a cloud server and represented it through skeleton loading states, pagination and dynamic routing.
 - * Utilized Git version control and the GitHub interface to work and thrive in a virtual and collaborative team.
